## TERMS OF SALE

1. This is a mail bid auction sale. All lots will be sold to the highest bidder. Bids will be treated as limits and lots will be purchased below the maximums (really!) where competition permits. Lots will be sold on the day indicated.
2. Payment is due upon receipt of invoice, so that we may pay our consignors promptly within 45 days of the closing date of the sale.
3. Seven (7) % state sales tax will be added to the cost of all lots delivered in Ohio.
4. Mail bid auction sales are not approval sales. No lot may be returned without written permission, and such permission must be requested within three (3) days after receipt of lots. By submitting your bids you agree to the Terms of Sale herewith set forth.
5. Bidders unknown to us must supply acceptable credit references or a 25% deposit to assure entry of their bids.
6. All postage, insurance, and shipping charges, however, will be added to invoices. There will be a 50 cent charge per lot for packing and processing.
7. Terms of sale are strictly cash in United States funds. Payment must be made immediately upon notification or upon receipt of material.
8. Lots to be mailed to addresses not in the United States or its Territories, will be sent only at the risk of the purchaser. When possible, insurance will be obtained; it must be noted, however, that adequate insurance is often not available by surface mail.
9. All books are as described. We acknowledge the possibility (sigh!) of errors and typographical mistakes, and any errors on our part will be cheerfully corrected. We cannot, however, be responsible for your errors; please check your bid sheet carefully.
10. Title to all lots remains with the cataloguer until paid for in full. We reserve the discretionary right to withhold delivery of lots until full payment has been received. We reserve the right to reject any bid from any bidder which we deem is not made in good faith. We reserve the right to reject any bid which, in our opinion, is ridiculous.
11. THERE WILL BE A TEN (10) % BUYER'S FEE ADDED TO ALL LOTS.

## THE MONEY TREE'S SIXTH MAIL BID SALE

Our second mail bid sale of 1989 features a significant variety of numismatic literature from many distinguished sources. The sale features many rare, classic, and important pieces of numismatic literature in all collecting areas - ancient, medieval, foreign, U.S., catalogues, periodicals, books, even an important letter. We genuinely feel that this sale provides special opportunities for collectors regardless of budget or area of interest. As usual, we have tried to make our annotations especially informative due to the fascinating works which we are fortunate to offer in this sale.

**REMY BOURNE**, of Minneapolis, has consigned his outstanding collection of Canadian numismatic literature. Mr. Bourne's numismatic contributions are varied and significant. His children, Michael and Marlene Bourne, conducted important sales of numismatic literature in the early 1980s. In addition to his collecting interests, he is the foremost researcher on Fixed Price Lists and "Prices Paid For" Lists in this country, having already published two volumes covering the period from 1828 to 1929. Three more volumes are in preparation. Additionally, Mr. Bourne has just released a new work, **American Numismatic Sales and Promotional Literature**.

We believe that Mr. Bourne's collection is the finest and most extensive collection of Canadian numismatic literature ever to be offered at auction in this country. The highlight is a rare complete set of the famous journal **THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL** issued from 1872 to 1933. We also believe that this is the first complete set to be offered at auction. Included in this sale are many rare and important references dating from the beginnings of Canadian numismatics - numerous works by McLachlan (some inscribed), Courteau, Leroux, and Breton; rare catalogues such as the 1867 Bronson sale, or McColl's 1903 fixed price list of tokens; important periodicals - The C.N.A. Bulletin and the C.N.A. Journal, **Transactions of the Canadian Numismatic Research Society**, Koper's Coin Topics.

**DAVID COHEN**, of Vestal, New York, another major consignor, is also a distinguished numismatic writer. He has written many articles on Seated Dollars which have appeared in the Gobrecht Journal. His paper on the Randall Hoard of large cents which he presented at the A.N.S. 1984 Coinage of the Americas Conference in New York was published by the American Numismatic Society in **America's Copper Coinage 1783-1857**.

His large consignment of numismatic literature is highlighted by an outstanding collection of Bowers material including a previously unknown Bowers Coin Company catalog, **CATALOG OF RARE UNITED STATES COINS**. Also featured are Bowers' 1956 **BULLETIN NO. 2**, the Empire Coin Company 1962 **E.S.N.A. AUCTION SALE**, the **Limited Library Edition of EMPIRE TOPICS** inscribed by Bowers and Ruddy to the Norwebs. The remainder of the Bowers material includes numerous publications from Empire Coin Company, Hathaway and Bowers, a complete set of Bowers and Ruddy catalogues, and 25 deluxe hardbound Bowers and Merena sales. Also featured is Max Mehl's **FIXED PRICE LIST NUMBER 5**, circa 1903, which we believe to be the earliest piece of Mehl literature yet to appear at auction. Mr. Cohen's consignment includes bound copies of Superior's **ROBINSON BROWN SALE** and the **HOAGY CARMICHAEL / WAYNE MILLER SALE**. Included are long runs of auction sales from **Federal, French, Hollinbeck, Katen, Kelly, and Wayte Raymond**. We firmly believe that everyone will enjoy the incredible variety of unusual and scarce material which is contained in Mr. Cohen's consignment.

Another distinguished consignor has consigned famous and important rarities of American numismatic literature. Among the highlights of the entire sale is a **plated copy of the Chapmans' legendary 1882 CHARLES I. BUSHNELL Sale**. We are especially pleased to offer an extremely rare plated copy of Thomas Elder's 1917 **HENRY MILLER Large Cent Sale**, one of the rarest plated sales in American numismatics. Other important works in this same consignment are a plated copy of the **Chapmans' CLEANAY Sale**, a copy of the rare 1910 **A.N.A. YEARBOOK**, a copy of **Henry Chapman's 1908 A.N.A. SALE in a magnificent Alan Grace binding**, and **Baker's 1889 BIBLIOTHECA WASHINGTONIA**.

A small, but quite special consignment is devoted to literature of classical numismatics directed toward coinage of particular aesthetic appeal. Highlights include: Kraay's beautiful 1966 **GREEK COINS**, Agnes Baldwin Brett's 1955 **CATALOGUE OF GREEK COINS**, Gallatin's 1930 **SYRACUSAN DEKADRACHMS OF THE EUAINETOS TYPE**, Jenkins 1972 **ANCIENT GREEK COINS**, Kent's 1978 **ROMAN COINS**, and Sutherland's 1974 **ROMAN COINS**

We are offering more properties from the **RARCOA (Rare Coin Company of America, Inc.)** consignment, the first part of which we offered in **Mail Bid Sale V**

**KENNETH ECKARDT**, of Puerto Rico, has consigned a complete run of **TAMS JOURNAL** from 1965 to 1986 among other periodicals and journals.

**LEONARD FINN**'s consignment features 2 Heath **COUNTERFEIT DETECTORS**, a Chapman **STICKNEY** sale, and the 1954 **Kann ILLUSTRATED CATALOG OF CHINESE COINS**.

**DAVID LANGE**, of San Francisco, who has written extensively for the Gobrecht journal and writes a monthly column for **THE NUMISMATIST**, has consigned a variety of important auction sales.

**TERRY STAHERSKI**, of Rocky River, Ohio (the hometown of The Money Tree) has consigned some important works for the large cents specialist: an 1893 Frossard & Hays **VARIETIES OF UNITED STATES CENTS OF THE YEAR 1794**; A 1909 Gilbert/Elder **VARIETIES OF THE UNITED STATES CENTS OF 1796**; the 1944 Newcomb - a deluxe, regular paper edition; and a letter from **HOWARD NEWCOMB** detailing errors in Mehl's reprint of Andrews; and a 1958 **PENNY WHIMSY**.

**MICHAEL SULLIVAN**, of Cincinnati, Ohio, whose book on banking histories will be released later this year, has consigned Griffith's 1959 **HISTORY OF THE AMERICAN BANK NOTE COMPANY** and a few important bank histories.

Some other offerings of note include 2 antiquarian numismatic works: Vaillant's 1695 **SELECTORIA NUMISMATA**; and Morellio's 1734 **THESAURUS MORELLIANUS**; and Virgil Hancock's deluxe bound copy of the 1975 **Superior A.N.A. SALE**.

Additionally, many moderately priced individual and group lots in all collecting areas are offered. We always try to offer something for everyone. We think this sale does precisely that. Finally, we thank the following people who provided important information or background which assisted us in cataloguing the sale, or who gave us permission to quote: Mark Auerbach, Warren Baker, Del Bland, Remy Bourne, Armand Champa, John Ford, Martin Gengerke, Col. Tim Henderson, George Kolbe, O. Scott Rubin, and Barry Tayman.

Good reading and good hunting. Enjoy.

THE CANADIAN ANTIQUARIAN AND ANTIQUARIAN JOURNAL

1. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. 1872-1933. (3500.00) PLATE

**BACKGROUND.** THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL (CANJ), the Journal of the Antiquarian and Numismatic Society of Montreal ranks with The American Journal of Numismatics and The Numismatist as the three most historically significant numismatic journals on the continent. However, many numismatists are unfamiliar both with its importance and its great rarity. Although there are more complete sets extant of the CANJ than of The Numismatist - perhaps a total of two dozen - most complete sets of the CANJ tend to be impounded in various museum and library collections, mostly in Canada. Consequently, there are notably fewer sets of the CANJ in private hands than there are privately owned complete sets of The Numismatist. In fact, we can only be certain of one other set in private hands in the U.S., as opposed to at least 9 privately owned sets of The Numismatist.

As numismatics in Canada during the 19th century grew much more slowly than in the U.S., the CANJ, the journal of The Numismatic and Antiquarian Society of Montreal, was the focal point for Canadian numismatics until the 1930's. Its great strength was based upon the impressive numismatists whose comprised its membership - Sandham, McLachlan, Morin, et al. - and their vision.

To increase membership the Society decided to devote itself also to antiquarian concerns. Consequently, the CANJ is not exclusively a numismatic journal. However, paraphrasing The American Journal of Numismatics' self-description, the CANJ can be considered to be THE early history of Canadian numismatics. The only exceptions to this were the various early standard reference works, which generally had been written by Society members.

The detailed numismatic contents of the CANJ can be found in the June 1989 issue of OUT ON A LIMB, The Money Tree's periodical journal. But because of the special nature of this offering, the specific highlights of each series and the important elements of each of the bound volumes will be detailed.

**CONDITION AND FEATURES:**

**FIRST SERIES:** Volume I (1872) - Volume XII (1885) in 5 bound volumes. Joints of Volumes 3/4, 5/6 weak. Contents: 21.5 x 14.3 cm. Bound volume 7-8-9 signed "Thomas Warner" on free-endpaper.

**FIRST SERIES:** Volume XIII (1886) and **SECOND SERIES** (complete): Volume I (1889-90)- Volume III (1893-1894). Contents: 21 x 14.5 cm. Three quarter black leather, black cloth, backstrip missing, First Series, Volume XIII misbound after Second Series, Volume II. Covers bound in. Bookplate of Universite de Montreal. "Collection Me. Victor Morin" inkstamped on bookplate. Heavily rubbed at extremities. Binding sound. Contents Fine.

Numismatic Highlights: the reprint of the Montreal Gazette's review of McLachlan's "Canadian Numismatics and Other Books". A variety of important McLachlan's important monographs, including: "Beaver Currency Tokens of the Hudson's Bay Company", "Recent Frauds in Canadian Coins", and the critically important "How the Chateau de Ramezay was saved."

Special enclosures: Bound inside this volume is a subscription receipt dated August 1886 to "Thos. Warner" for Volume XIII from D. English & Co., publishers of the CANJ. Also bound in is a subscription receipt from the Numismatic and Antiquarian Society of Montreal dated November 21, 1889 for Volumes I and II of the second series (1889-1891) signed by R.C. Lyman. On the reverse is another receipt for \$1.00 for a "Jeton de Presence". Finally bound in is a Postal registered letter receipt for the 1889 CANJ. Thus, this volume was also part of Warner's set.

**THIRD SERIES:** Volume I (1898) to Volume I2 (1916) bound in 6 volumes. Volumes I & II - contents 22 x 15 cm. Volume III & IV - contents 22.5 x 15 cm. Volumes V onward - contents 23.5 x 15.5 cm. Three quarter red leather, marbelled boards, raised spines, gilt. Heavily rubbed at extremities. Covers bound in. Fore edges untrimmed, a few unopened. Inside cover inkstamped with seal of "Bibliotheque des P.P. Franciscains Montreal". Some with weak joints. Contents Fine.

**Numismatic Highlights:** McLachlan wrote most of the numismatic articles. Of special significance: "Medals Awarded to Canadian Indians", "Patterns Struck at the Royal Mint for Canada", "The Canadian Wellington Tokens", "Canadian Card Money", and his history of the Montreal Society.

**FOURTH SERIES:** Volume I (1930) to Volume IV (1933) in 4 brown clothbound volumes, gilt. 22.8 x 14 cm. Covers and indexes bound in. Covers nearly VF, contents VF.

**Numismatic Highlights:** Articles on Indian peace medals and Canadian military medals.

**SUMMARY:** We believe that this is the first complete set of THE CANADIAN ANTIQUARIAN AND ANTIQUARIAN JOURNAL to be offered for sale at either a mail-bid or a public auction in this country. After extensive research and after having consulted with authoritative numismatists, we have been unable to find any sales in auction records of numismatics or numismatic literature. The pedigree of the early issues, and the significant historical importance of this journal makes this opportunity singularly rare.

Nearly all of the items below were formerly from the library of Thomas Murray, a longtime Montreal book dealer. Murray's name is mentioned in various of Courteau's monographs as being a contributor of tokens and as a source of information. Mr. Murray had each of the following items bound in cloth and marbled or patterned boards. In most cases his initials "T.M." appear in gilt on the base of the spine. The corners of the boards in most cases show rubbing, as these bound copies were actually used for reference. The corner rubbing will not be mentioned below in the descriptions unless extreme. The cloth at the extremities of the spines can be assumed to show modest wear unless noted. As many of the references contain few pages, many have blank pages bound in at the end to add bulk. If the original covers or wraps were present when binding occurred, they were bound in. Although we will not further delineate the conditions of the bindings, the conditions of the contents for each lot will be individually described. Finally, each will have the Remy Bourne's stamped impression inside.

Also, the works by Breton, Courteau, and McLachlan are listed chronologically rather than alphabetically.

**2. Bagg, Stanley C. COINS AND MEDALS as Aids to the Study and Verification of Holy Writ: Read before the Numismatic Society of Montreal.** 1863. 24mo, blue wraps. 12 pp. Later cloth and boards. Contents slightly discolored, else VG. (75.00)

Tremblay, "marchand de ferrieres et peintures", who incidentally happened to be ANA member #112, curator of the Chateau de Ramezay Museum, and the original owner of the set of THE NUMISMATIST auctioned by Bowers and Merena in November 1988. A neat copy.

The lists include names of each bank, the opening and closing dates of each, the head office. Also, "Banks Incorporated But Never in Operation", "Note-Issuing Banks Described as 'Spurious'". Important for legal tender and broken bank notes.

This guide was produced about the time that the Charlton standard guides began to be printed in the United States. Most important for the nearly 60 page illustrated section on Canadian tokens. These annual guides were the superior Canadian reference until the Charlton guides resumed being published in Canada in the early 1970s.

70. Koper, Bert. THE BLACK OUT NICKELS OR TOMBAC. A Numismatic Treat on Canadian 1942 Twelve Sided Beaver Nickels. (1946). 8vo, wraps. 12 pp. Ills. VF. (15.00)

All specimens are classed - in Rarity, from our personal research since 1942 to the present time. None have been overstated in rarity." 71. Koper, Bert (The Canadian Numismatic Art Society). THE CANADIAN NUMISMATIC COIN TOPICS/ THE CANADIAN COIN TOPICS/MONEY TALK/MONEY TALKS/CANADIAN MONEY TALKS. 13 issues complete. August 1938 (Volume I, No. I) to May 1950. 8vo, CaC. Fine and better. (100.00)

These journals mostly produced by Bert Koper, a Winnipeg barber and numismatist, were the only national Canadian numismatic periodicals of the period. The journal, with various titles also had two different formats. The first volume of six issues from August 1938 to June 1939 and the July 1940 issue were tan card covered quality periodicals. They appeared similar in form and content to a mini-version of The Numismatist. Beginning with the February 1941 issue, they were mimeographed and of lesser production quality. The pre 1941 issues contained quality monographs dealing with Canadian numismatics. Among the regular contributors was Sheldon Carroll. This serves as a bridge between the Canadian Antiquarian and the Canadian Numismatic Bulletin. Quite important and rarely offered complete.

72. Koper, Bert (Park Coin Shop). CANADIAN PROVINCIAL COPPER CENTS 1858-1859. (1944). 8vo, wraps. 8 pp. Rarity guide. Ills. VF. (25.00)

November & December, 1957 (nos. 10 & 11), 1958 complete. May 1969 - December 1970, complete (holed at top for binder). October 1972 - February 1974, complete. This house organ is primarily a listing of Canadian, Maritime, and English coins and tokens at fixed prices. Each issue includes commentary on newly issued coins and currency. A fascinating accumulation of information.

74. Northwest Coin & Stamp Gallery Ltd. (Vancouver). 25 Fixed Price Lists. Issued between November 1972 and May 1977. 8vo, self-covered. Averaging 8 pp. Ills. Fine. (10.00)

6 of the lists are undated and were issued prior to 11/72. The lists emphasize Canadian and Maritime coins, tokens, and currency. While most lists contain inexpensive decimal stock, many feature important currency, coins, and tokens. Useful.

75. Plante, Carol (Lac Beauport, Quebec). 80 Fixed Price Lists. Issued between June 1967 (no. 23) and September-October 1978 (no. 119). 4to, typed sheets. Averaging 12 pp. Fine. (30.00)

Plante's lists are especially valuable for British Commonwealth and Scandinavian coinage. While his extensive lists tend to consist mostly of moderately priced foreign coinage from A to Z, he also features grand rarities. A run of lists this extensive is most valuable. [By the way, just sorting and collating these lists took nearly an hour, not counting the time I spent reading and reminiscing].

76. Raymond, Wayte. THE COINS AND TOKENS OF CANADA. 1937. 8vo, Thick CaC. 24 pp. Ills. Vals. Rear cover soiled, peripheral discoloration on front cover, else Fine. (12.00)

Raymond's guide essentially became the standard Canadian collectors guide from 1937 until Charlton issued his first guidebook in 1952. Subtitled "An illustrated list of all the types of Canadian Coins and Tokens from 1670 to date, including the official mint reports from 1858 to 1936". A second edition was issued in 1947. Important.

77. Remick, Jerry and Serge Pelletier. CANADIAN TRADE DOLLARS. A Fascinating New Field in Canadian Numismatics. 1980, Monogram Number One. 4to, CaC. (40) pp. Ills. Bent at top corner, else VF. (10.00)

Canadian trade dollars were defined as "A community coin, sponsored by a local authority and given legal monetary value [generally \$1.00] in a limited area for a limited time by the appropriate local authority." This volume lists 441 design types which were known at the time. The designs reflected the some aspect of the people's way of life in the issuing area. An important basic guide issued by the Canadian Association of Token Collectors.

78. Rogers, Bob (Holliston, MA). THE CANADIAN NUMISLETTER. A Monthly Voice of Reason About Canadian Coins. Vol. I, No. 1 (September 1982) to Volume I, No. 7 (January 1983), complete. Each 8 pp. folded as mailed, VF. (15.00)

This lot also contains an additional copy of the first issue inscribed "To Remy Bourne - Charter Subscriber. Best Wishes and Happy Collecting. Bob Rogers". Of importance as these two sales contained the Kenneth Gaver Numismatic Library, in addition to important Canadian coinage. "Very few devoted numismatists have ever attempted to collect books as did the late K. Gaver of Collector's Research .... The Dr. K.M. Gaver Library offered in this sale is one of the most extensive ever made available to collectors in this country." The library offering totalled 400+ lots.

#### CANADIAN NUMISMATIC LITERATURE FROM OTHER SOURCES

94. The Canadian Numismatic Association. THE CANADIAN NUMISMATIC BULLETIN. 1950-1955, complete, bound in three volumes. 4to, later red cloth, gilt. The contents printed on rectos, folded as originally mailed. But for a few bumped corners, nearly VF. (200.00)

The C.N.A. produced THE CANADIAN NUMISMATIC BULLETIN for six years before changing the name and format of the periodical to THE CANADIAN NUMISMATIC JOURNAL in 1956. It may surprise some that there was no national Canadian numismatic organization until 1950: "It is true that efforts have been made in the past to create both [a national numismatic publication and a national numismatic organization] but these efforts have met with indifferent success." The Ottawa Coin Club, formed in 1948, decided at its 1950 annual meeting to reorganize itself as the CNA. The third issue of the BULLETIN (April 1950) noted that membership was approaching 130 (!).

The early issues dealt with Canadian dot coinage, listing the owners of the significant Canadian decimal coinage rarities, and updated membership lists. Featured serially throughout the early issues was Fred Bowman's "Bibliography of Canadian Numismatics". The February 1953 issue contains a marvelous paper by Sheldon Carroll, "A Short History of Canadian Numismatics". The October/November 1953 issue features Fred Bowman's important "Some Outstanding Catalogues of Canadian Coins". Also included is a 3 part series by E. Kann "The Story of Chinese Money". The November 1954 issue has 2 important articles "Mr. Gerald E. Hart and the Numismatic and Antiquarian Society of Montreal" and "Canadians Active in Building the A.N.A.". The December 1954 issue features "The Copper Coins of the Bank of Montreal". February 1955 noted that the C.N.A. had just assigned membership number 852. Bound in at the back is the C.N.A. Bulletin Index.

Obviously, while the BULLETIN costs significantly less than the first six volumes of The Numismatist, the C.N.A. BULLETIN is quite similar in many ways: the debut of the journal of a major national numismatic organization, the limited membership in the early years, and the change of format after a few years. Remember, as the C.N.A. only had about 100 members at the start, the potential number of completely original sets of the C.N.A. BULLETIN is distinctly limited.

95. Goldsmith, M. & Co., Ltd. (Montreal) Bankruptcy Auction Sale of the Largest and Rarest Collection of Canadian Numismatic Items (2174 lots) Ever Offered in the World. Third Segment of the Famous [LEO] MELOCHE Collection (IN BANKRUPTCY). June 23-24, 1971. 8vo, gold CaC. 104 pp. 2174 lots. 1 plate. VF. (25.00)

"This auction of Canadian money is unique, being the largest and rarest collection ever offered anywhere". (Can you say "hyperbole"?) Highlights: 615 lots of Breton tokens, 484 lots of "Leroux" medals and tokens. Also the W.W.C. Wilson 1804 dollar.

96. Raymond, Wayte and James G. Macallister, cataloguers. (J.C. Morgenthaler & Co., Inc.). Sale Number 356 [LUDGER GRAVEL]. Rare Canadian and United States Coins and Medals. December 10, 1935. 30 pp. 547 lots. Priced in margin. Also PRL. But for some neat underlining in red pencil, nearly Fine. (25.00)

This copy is neatly handpriced in red. Gravel's Canadian comprise the first 89 lots. Highlights: good coinage of the French regime with an unc 1721B 9 deniers, 3 lots totalling 12 Bout de L'Isle tokens (B. 534-545), 12 Repentiguy silver proof pattern tokens (B. 546-557), a pedigreed, unc. R.W. Owen (B. 564) brought \$100, and rare ship tokens. An underappreciated sale replete with Canadian rarities.

97. Schulman, Hans M.F. Important Catalogue No. 25 ... Listing DR. COURTEAU'S COLLECTION of CANADIAN COINS AND MEDALS. 1944. 8vo, green CaC. 117 pp. 3135 lots. Ills. Fine. (25.00)

While this catalogue also consists of U.S. and foreign coins and medals, it also contains a major section "The Famous Dr. Courteau Collection of Canadian Rarities" with the notation "This is the most important Canadian Collection recently offered." Lots 2500 to 3131 consist of Courteau's collection featuring (1) Franco-American jetons, "A unique collection containing all varieties and the only collection of this size in the world." (2) bridge or Bout de L'Isle tokens (3) bouquet sous (4) pieces unlisted in Breton (5) decimal coinage (6) and rare medals. Important.

98. TRANSACTIONS OF THE CANADIAN NUMISMATIC RESEARCH SOCIETY. Volumes 1 - 4 complete. 1965 - 1969. 4to, red cloth. 85, 53, 62, 72 pp. Ills. VF. (200.00)

Members only are automatically sent the volume. Each volume has a small printing." This is a privately bound copy of the regular annual volumes.

#### The Chapmans' Celebrated 1882 BUSHNELL Sale with Plates

101. Chapman, S.H. & H. Catalogue of the Celebrated and Valuable Collection of American Coins and Medals of the Late CHARLES I. BUSHNELL, Esq. June 20-24, 1882. 4to, later cloth, gilt. 142, 10 pp. 3000 lots. Prl. 12 fine phototype plates, tissue interleaved. The new binding nearly as new. Except for the slightest foxing, the contents are virtually VF. The superb plates are virtually as issued. (1500.00) PLATE

The Bushnell Collection. Charles Bushnell was one of the key figures from the embryonic period of American numismatics. His 1858 book, An Arrangement of Tradesmen's Cards, Political Tokens, Medals ... Current in the United States of America for the Last Sixty Years was the first substantial purely American numismatic work. His collection, "one of the most famous ever assembled, was unusually strong in Americana, Particularly Colonial coins, Medals, Tokens, Cards and similar items."

The Background of the Sale: After Bushnell's death in 1880, the eager prospective purchasers of his collection were Frossard, Woodward, Smith, Sampson, and the Chapmans who had conducted their first sale the year before in 1879. To the chagrin of the established numismatic professionals, the Chapmans obtained the collection. To be precise, Lorin Parmelee, generally acknowledged to be the most prominent collector of his day, secretly purchased the collection outright, and secretly consigned the collection to the Chapmans. Thus, Parmelee could bid freely on the items he wished: items such as the notorious Good Samaritan shilling, some Massachusetts silver, and the Lord Baltimore penny. The balance of the collection, in which he was not interested, could then be (and was) quickly and profitably

dispersed. By estimate, Parmelee originally paid about \$8000 for the collection which yielded nearly \$14,000, less the \$3800 in purchases he made at the sale.

The Catalogue. The Chapmans in a sale prospectus/circular announced that the catalogue, corresponding in size, would form a sequel to Crosby. Most auction sales of the day were public sales involving essentially the same relatively small coterie of collectors, so catalogues were mostly lists of individual coins and lots, although some of the better catalogues offered moderate textual information. Although the catalogue was not, in fact, a Crosby sequel, it broke new ground by its extensive, detailed annotations, its large format, and its 12 large phototype plates. Thus, the Chapmans with this catalogue can be considered to have brought a new, richer dimension to the American numismatic auction catalogue.

The Controversy. The awarding of this majestic collection to seeming upstarts caused Frossard and Woodward, and others of the numismatic "establishment" to conduct an ongoing tirade for many years against the Chapmans and the Bushnell catalogue. Frossard, in Numisma attacked the Chapmans' credibility, knowledge, grammar, language skills, and the catalogue's size, price, and typographical errors. NOTE: much of the above information came from John J. Ford, Jr. (with his permission) in his definitive article "Numismatica Americana" from The Coin Collector's Journal, March-April 1951.

An Analysis. The professional jealousies notwithstanding, the Chapmans did make numerous serious errors in the catalogue, the most infamous involving the Good Samaritan shilling. However, the sale "stands today as the most important American sale catalogue in terms of research value for those interested in the byways of American numismatics. It is absolutely indispensable to those interested in 'Numismatic Americana', i.e. colonials, early medals, tokens, storecards, Washingtonia, early patterns." (George Kolbe, The Ted Craige sale, 8/13/83, lot 852)

According to Mr. Kolbe, the sale "had a profound, perhaps unequalled impact on the course of professional numismatics in America. First of all, it established the Chapman brothers as the dominant force in the field .... Second, it firmly reinforced the importance of the illustrated catalogue with detailed descriptions. Finally, it established a new level of showmanship in American numismatics." (with permission from, and thanks to, George Kolbe)

Rarity. Only 500 copies of the Bushnell sale were printed, 100 with the plates. Jack Collins stated in his October 1983 sale that "it is extremely doubtful if more than twenty copies survive." Mr. Kolbe stated "it is known that a Bushnell was the last palted large size Chapman to be accessioned in two of America's finest numismatic libraries."

Final Comments. Few works can accurately be credited with being watersheds in their field. The opportunity to obtain such an influential piece of American numismatics, one which occurs infrequently, is at once important and exciting.

Adams, A+. The magnificent binding and the quality contents do justice to the quality of the sale's offerings. A superior sale featuring outstanding colonials and excellent U.S. coins in all series: gold proof sets from 1859-1888, 1842-1880 proof sets, 1825-1834 \$5.00s, an unc 1797 half, and an unc 1804 quarter.

Adams, B. The second A.N.A. sale catalogue. Despite the historic importance of this sale, and its great elusiveness, this may be one of the few cases where the magnificent binding tops the sale.

#### A Rare Plated Copy of the Thomas Elder's April 13-14, 1917 Sale

#### The HENRY C. MILLER Collection of Large Cents and Half Cents

104. Elder, Thomas. Important Public Sale. Splendid Collection of United States and Foreign Coins formed by HENRY C. MILLER, Esq. Remarkably Large and Complete Collection of U.S. Cents and Half Cents, in the Finest Condition Obtainable. Choice and Rare U.S. Silver and Gold Coins; Very Rare U.S. Pattern Cents, etc. Proof 1880 Stella in Gold; Fine Ancient Gold; United States Gold Proof Sets; War Medals; Choice Foreign Thalers, Etc. About 1100 lots. April 13-14, 1917. Small 4to. 48 pp. 1082 lots. Prl. 4 fine photographic plates of large cents. (1000.00) PLATE

Ex-Libris Lester Merkin. Lot 266 in the 1984 Kolbe Sale of the Lester Merkin Library where the sale was described as "Magnificent Miller Collection with Plates". The condition was described as "Original green cloth, gilt, spine crudely repaired, contents coming loose, variety attributions noted in ink on the plates." To be precise, this copy has the small format sale bound in, with tissue interleaved plates, and the Prl. in a pocket on the inside back cover. The covers are rubbed at the extremities. However, we must respectfully take exception with Mr. Kolbe's description of the catalogue's spine. We believe that the spine's repair has been rather expertly done.

"The Cents and Half Cents alone realized over \$8000, being a world's record for these coins. The 1796 Half Cent sold for \$710, also a record." Plated, this qualifies as one of the ten rarest American auction sales. This sale's appearance in the 1984 Kolbe Merkin was its only appearance this decade. It did not appear in the Kolbe's Champa/Lee or Craige sales, or in the Jack Collins 1983 sale, or in any other prominent sales.

This most prestigious house organ features comprehensive coin offerings, extensive text, and original research and observations by John Ford and Walter Breen. 15 of the numbers contain mail bid sales according to American Numismatic Sales and Promotional Literature. Complete runs are infrequently offered and always in demand. This grouping is particularly clean, the staples rust-free. NUMISMA represents the epitome of its genre.

Consignor's note: "A nicer copy could not exist." "Murray Sprung" in gilt on cover. According to Jack Collins, these are scarcer than generally believed as Abe Kosoff abandoned the majority of these on dock in Brooklyn in a dispute with a shipper. This legendary collection of F.C.C. Boyd is of great significance for the researcher and collector.

#### ANCIENT COIN REFERENCES - A SPECIAL OFFERING

This brief, but important consignment contains major works each emphasizing the aesthetics of ancient coinage.

108. **Brett, Agnes Baldwin. CATALOGUE OF GREEK COINS.** Boston: Museum of Fine Arts. 1955. 4to, beige cloth, gilt. 340 pp. 115 fine plates. VF. (200.00) PLATE

C-S 1904\* "Chiefly the Edward P. Warren Collection". Grierson, p. 32. E.P. Warren and Sir John Marshall assembled a collection of 1769 "artistic, well-preserved" coins which were acquired by the museum in 1902 and were first widely publicized in Regling's *DIE GRIECHISCHEN MÜNZEN DER SAMMLUNG WARREN*. Because of the scarcity, and the importance, of this volume, it was reprinted in 1974. This is a bit nicer than the one we offered in Mail Bid Sale 5. We consider ourselves fortunate to have offered two copies of this scarce work.

109. **Gallatin, Albert. SYRACUSAN DEKADRACHMS OF THE EUAINETOS TYPE.** 1930. Large 4to, original blue cloth, gilt, top edge gilt. 53 pp. Frontis. 12 fine plates of enlargements. But for some insignificant spots on the cover, VF. (125.00) PLATE

C-S 2262\*. Gallatin attempted to illustrate all the varieties of the dekadrachms which Euainetos signed or which are similar in design. "42 obverse dies, together with five varieties of same, and twenty-four reverse dies are illustrated, and a list is given of the known specimens from each die". The unsurpassed, standard reference.

110. **Head, Barclay V. HISTORIA NUMORUM: A MANUAL OF GREEK NUMISMATICS.** New and Enlarged Edition. 1911. Thick 4to, maroon cloth, gilt. 966 pp. 6 maps. Ills. (75.00) PLATE

C-S 1832\*. Unequivocally, the best single reference on Greek coins. Indispensable and irreplaceable.

111. **Jenkins, G. Kenneth. ANCIENT GREEK COINS.** 4to, blue cloth, gilt, dj. 1972. 310 pp. 20 colour plates. 615 monochrome illustrations. Nearly Mint. (200.00) PLATE

One of the series of *THE WORLD OF NUMISMATICS*, which includes the Sutherland book on Roman coins and the Whitting work on Byzantine coinage, both offered below. Other than Kraay's 1966 work, this is the most visually impressive reference on Greek coins. Jenkins was Keeper of the Department of Coins and Medals in the British Museum. This handsome work is a chronological study "from the Archaic period, through the golden era of Athens, to the Hellenistic period of Athens that began with Alexander the Great". Both scholarly and readable, this work discusses and catalogues nearly 700 superior specimens.

112. **Kent, J.P.C. & Max and Albert Hirmer. ROMAN COINS.** 1978. 4to, green cloth, gilt, dj. 368 pp. Maps. 199 fine plates illustrating 785 coins. Nearly Mint. (100.00) PLATE

C-S 4040\* (for the German Language version). A visually stunning work with superior scholarly text, encompassing then new research, by Kent who was the Deputy The photographs were taken by Kraay who was also the photographer for the famous 1966 *GREEK COINS*. This is a perfect companion volume for that famous work. A "magnificent presentation of the coins of Republican and Imperial Rome, a span of over one thousand years".

113. **Kraay, Colin M. & Max Hirmer. GREEK COINS.** 1966. 4to, original tan linen, gilt, dj. 396 pp. 4 maps. 20 enlarged fine colour plates. 1329 other illustrations on 220 fine monochrome plates. Nearly VF. (450.00) PLATE

C-S 1849\* Generally acclaimed to be the most outstanding record of Greek coinage extant. The magnificent plates are equalled by the learned text. A superior example of numismatic aesthetics and scholarship.

114. Mildenberg, Leo & Silvia Hurter (eds.). THE ARTHUR S. DEWING COLLECTION OF GREEK COINS. American Numismatic Society. 1985. Two volumes. 4to, orange cloth in matching slipcase. 194 pp. 142 fine plates. Nearly Mint. (125.00) PLATE

ANS Ancient Coins in North American Collections, No. 6. The Dewing collection, one of the great collections of modern times, is catalogued in sylloge format. The 2797 coins in his collection are fully attributed, described, and well-provenanced. The plate volume illustrates all (we believe) of the coins both obverse and reverse. While the Dewing collection contains stunning coinage, a particular highlight is the 56 dekadrachms, 34 of which Dewing purchased from the sale of the Gallatin collection (whose book on Syracusan dekadrachms is offered above) by the Philadelphia Academy of Fine Arts in 1950.

115. Sutherland, C.H.V. ROMAN COINS. 1974. 4to, blue cloth, gilt, dj. 311 pp. 20 colour plates. 505 monochrome illustrations. Nearly Mint. (75.00) PLATE

C-S 3634\*. One of the series of THE WORLD OF NUMISMATICS. Sutherland was the Keeper of the Heberden Coin room in the Ashmolean Museum at Oxford, also a Past President of the Royal Numismatic Society. This is a narrative history of Roman coinage, using 572 specimens, from the Republican through the Imperial to the times of Romulus Augustulus. This is a perfect companion volume in concept and execution to Jenkins', GREEK COINS offered above.

116. Whitting, P.D. BYZANTINE COINS. 1973. 4to, blue cloth, gilt, dj. 311 pp. 20 colour plates. 390 monochrome illustrations. Nearly Mint. (65.00) PLATE

C-S 5420\*. One of the series of THE WORLD OF NUMISMATICS. A continuation of the chronological numismatic study to the Jenkins and the Sutherland works, although Sutherland's work was completed after this. This discusses in similar fashion the history of Byzantine coinage using 457 specimens. This attractive work is a most readable, comprehensible narrative of Byzantine coinage.

#### A Consignment from MICHAEL SULLIVAN

117. Griffiths, William H. THE STORY OF THE AMERICAN BANK NOTE COMPANY. 1959. 4to, maroon quarter cloth, gilt. 92 pp. 11ls. 8 fine double page, steel plate engravings of vignettes. VF. (125.00)

These were distributed by the ABNC to certain VIPs and stockholders; they were not sold. Despite this being a history of the ABNC from 1795 to 1958, the major appeal of the book is the superb vignettes representing the epitome of the craft: all the presidents through Eisenhower, 22 foreign dignitaries (Schweitzer, Marti, Sun Yat-Sen, Juarez), 20 prominent Americans (Edison, Daniel Webster, Franklin, Robert E. Lee, Hamilton), 9 of architecture (Statue of Liberty, Notre Dame, the Acropolis), trains, ships, allegories (reminiscent of Educational Notes), and styles of currency. Always in demand, deservedly.

Subtitled "A brief history of its 150 years of continual existence with emphasis on the early days of its first forebear, the Massachusetts Bank - organized in 1784." Of note: a 7 page roster of bank customers from 1784 to 1800. A particularly important, scarce bank history.

120. The International Israel Numismatic Society, Inc. JOURNAL OF ISRAEL NUMISMATICS. The first 9 issues. From Volume I, No.1 (Feb.-Mar. 1966) to Vol.2, No. 3 (June-July 1967). 8vo, CaC. 11ls. VF. (25.00)

Edited by Fred Bertram, this glossy paper journal predates THE SHEKEL. The issues feature quality articles on coinage of Palestine, "city coins" of ancient Israel, Israel paper money. Regular features deal with rarities, tokens and medals, and Judaica. In demand.

Estimated 300 printed. Quite scarce. In our first mail bid sale, a defect-free copy, the most heavily bid on lot in the sale, brought \$28. This lot also contains Lester Merkin's Fall-Winter 1961-62 List #2.

127. Coffin, Joseph. COINS OF THE POPES. 1946. 8vo, blue cloth. 169 pp. 16 pls. Fine. (20.00)  
Plate one has an envelope glued to it containing a Christmas card addressed to "Uncle Edgar". Still unsurpassed as a one volume reference.

128. Cohen, Jean. THE CLASSIFICATION AND VALUE OF ERRORS ON THE LINCOLN CENT (THE ENCYCLOPEDIA OF FIDOLOGY). 1969. 4to, rust cloth, gilt. 600 pp. Profusely illustrated. Errata sheet tipped in. Virtually VF. (40.00)

130. Davis, Dr. Holland A. THE DAVIS ROCKY MOUNTAIN COIN ENCYCLOPAEDIA. 1930, 2nd ed. 17 x 10.3 cm. 73 pp. Nearly VF. (15.00)  
Davis was the secretary of the American Philatelic Society. This little handbook lists all coins worth a premium, mintages, and "Numismatic Notes and Information for the Uninitiated as Well as for Those Interested in Coin Collecting".

131. Dickeson, Montrovile Wilson. THE AMERICAN NUMISMATIC MANUAL of the Currency or Money of the Aborigines, and Colonial, State, and United States Coins. With Historical and Descriptive Notices of each Coin or Series. 1859, 1st edition. 4to, later cloth, gilt. 256 pp. Portrait of author, frontispiece, "Illustrated by nine-teen plates of facsimiles." The new covers slightly scuffed. But for some foxing on the free-endpapers, the contents are clean and virtually VF. (125.00)  
"As faulty as much of the information was, the basic concept of the book helped it to achieve a standard which was never equalled in later publications of this kind". The plates are most attractive. The first book to discuss in any detail the primitive currencies and Colonial coinages of this country." (George Kolbe's Mail Bid Sale IV, p. 70.). Its popularity convinced Dickeson to issue to later editions of this work in 1860 and 1865.

132. Doty, Richard G. THE MACMILLAN ENCYCLOPEDIC DICTIONARY OF NUMISMATICS. 1982. 355 pp. Ills. 22 color plates. VF. (30.00)  
"Dr. Doty's book covers the world's coinage from its beginnings to the present day" ( cribbed from the dust jacket). Includes methods of coinage, exonumia, currency, primitive money, and forgeries. From "Abbreviation" to "Zinc coinage". Also includes an excellent bibliography.

133. Evans, George C. HISTORY OF THE UNITED STATES MINT with a Complete Description of AMERICAN COINAGE from the Earliest Period to the Present Time. 1885, New, Revised Edition. 8vo, cloth, gilt. 162 pp. Frontis medallion, Ills. 24 plates of coins. Cloth covers heavily faded and spotted, rubbed at extremities. Contents clean, nearly Fine. (25.00)  
As Evans' tend to come with heavily worn covers, and in a number of "varieties", the value of their contents and features tend to be overlooked or minimized. The rest of the title gives insight into its true value - "The process of Melting, Refining and Assaying Gold and Silver fully described: with Biographical Sketches of Thomas Jefferson, Alexander Hamilton, Robert Morris, Benjamin Rush, John Jay Knox, James P. Kimball, Daniel M. Fox, and the Mint officers from the foundation to the present. To which are Added a Glossary of Mint Terms and the Latest Official Tables of the Annual Products of Gold and Silver in the different States, and Foreign Countries, with Monetary Statistics of all Nations" This volume also includes steel plate engravings of Morris, Rittenhouse, Rush, Boudinot, Jefferson, Hamilton, Knox, and one of the Philadelphia Mint.

134. Friedberg, Robert. **PAPER MONEY OF THE UNITED STATES**. 1953, 1st edition. 4to, green cloth gilt. 128 pp. Ills. Vals. Covers rubbed, contents clean and Fine. VG. (25.00)  
The elusive first edition.

135. Hoch, Alfred (ed.) **SELECTED ARTICLES ON THE SUBJECT OF AMERICAN TOKENS REPRINTED FROM "THE NUMISMATIST" (1904-1938)**. 1969. 228 pp. Ills. But for tape residue on pastedowns and free-endpapers apparently from a missing dust jacket and free-endpapers, VF. (25.00)  
The Token and Medal Society reprint. 96 articles mostly from before 1920

136. Iversen, Iulii Bogdanovich. **MEDAILLEN AUF DIE THATEN PETERS DES GROSSEN**. St. Petersburg, 1872. 4to, cloth. xxvii, 69 pp. 12 pls. Covers rubbed, spine chipped and faded, engraved plates moderately foxed, contents otherwise Fine. (175.00) PLATE

C-S 14940\*. Decidedly rare. Even the famous Kolbe Basel sale only offered a copy of the 1978 Spink reprint. The most recent offering that we have found for the original edition of this work on the medals of Peter the Great was in the 1947 Jacques Schulman sale in Amsterdam of the EDM. RAPPAPORT Numismatic Library.

137. Jenkins, G.K. **ANCIENT GREEK COINS**. 1972. Small 4to. 310 pp. 20 color plates. 635 monochrome illustrations. VF. (225.00)

From "The World of Numismatics" series. Other than the Hirmer/Kraay 1964 Greek Coins, this is the most magnificently illustrated reference work depicting the aesthetics of Greek coinage. The equally impressive text, organized chronologically, describes "the symbolism of the design motifs and analyzes their historical significance. Technical aspects, monetary and weight standards are carefully examined." [from the dust jacket]. The late John Barton recommended this to me as the first book I should buy upon beginning to study ancient Greek coinage. This is one of the most eagerly sought books in numismatics. Another copy of this work is offered in lot 111.

138. Kagin, A.M. "The Most Valuable American Coin. Spanish American Style Brasher Doubloon". Reprinted from the November 1957 Numismatic Scrapbook Magazine 8vo, (6) pp. Ill. VF. (15.00)

Inscribed: To Hon. and Mrs R.H. Norweb "Real Numismatists". Art Kagin. This is an NSM reprint, not merely "ripped out" pages. As such, this is quite scarce.

139. Newcomb, Howard R. **UNITED STATES COPPER CENTS, 1816-1857**. 1956, 2nd edition. 4to, maroon cloth, gilt. 280 pp. Ills. 11 plates. Cellophane tape residue on pastedowns, else a nice Fine copy. (45.00)

The rarest of the reprint editions, only 500 copies were printed.

140. Raymond, Wayte (Stuart Mosher, ed.). **COIN TOPICS**. The first 13 issues (of 16 issued) from February 1936 to July 1939. Issues 1-3, 4to. Issues 4-13, 8vo. Issues 7-11 holed at margin indicating removal from a bound volume. Issues 1-5 VF. (35.00)

The early Quarto issues are particularly scarce.

141. Raymond, Wayte. **STANDARD CATALOGUE OF UNITED STATES COINS AND CURRENCY FROM 1652 TO PRESENT DAY**, 1936. 1935, 2nd edition. 8vo, brown cloth, gilt. 189 pp. Ills. Vals. Fine. (45.00)

A scarce early edition. Raymond's STANDARD CATALOGUE generally have faded pastedowns and free-endpapers, as does this. With the popularity of collecting REDBOOKS, it would make sense that these early edition, pre-Yeoman standard guides would correspondingly be more eagerly sought, especially as their \$2.50 price during the depression severely limited the number of collectors who could afford them. This lot also includes a VG copy of the scarce 1939 edition.

142. Raymond, Wayte. **STANDARD CATALOGUE OF UNITED STATES COINS AND TOKENS FROM 1652 TO PRESENT DAY**, 1941. 1940. 8vo, blue cloth, gilt. 238 pp. Ills. Vals. A small dig in the spine joint, the bright covers with slight discoloration from the missing DJ, else Fine. (35.00)

The issues from 1940 to 1942 are especially in demand because of the 60 page illustrated section on Hard Times tokens, Civil War tokens, and Merchant's tokens. This lot also includes a VG copy of the 1942 edition with the section on tokens.

143. **SELECTIONS FROM THE NUMISMATIST: United States Coins**. 1960. 8vo, blue cloth gilt. 301 pp. Ills. VF. (15.00)

This lot also includes an ex-Library copy of Scott's 17th edition of Catalogue of Copper and Nickel Coins bound with the 27th edition of Catalogue of Gold and Silver Coins bound with Standard Paper Money Catalogue, 1889. Third Edition. These two volumes are quite useful references about American numismatics from the 1890s to 1915.

144. Sheldon, William H. **EARLY AMERICAN CENTS 1793-1814. An Exercise in Descriptive Classification with Tables of Rarity and Value, With the Collaboration of H.K. Downing and M.H. Sheldon**. 1949. 331 pp. 51 collotype plates. But for tape residue from plastic cover on dust jacket on pastedowns, VF. (75.00)

2500 originally printed. With the widespread industry use (and the consequences thereof) of Sheldon's grading scale, he would probably ask for a coffin rotator so that he could turn over in his grave.

145. Society of Paper Money Collectors. **PAPER MONEY**. Devoted to the Study of Currency. 25 of the first 26 issued. From Winter 1962 (Volume 1, Number 1) to Second Quarter 1962 (Volume 7, Number 2, Whole No. 26). 4to, glossy CaC. Ills. Fine and better. (100.00)

Issue 3 is missing and the first 9 issues have the volume and issue number handwritten in red ink on the top corner. The official publication of the SPMC, any run of these issues is always eagerly sought. Finding the beginning numbers available is genuinely unusual. These profusely illustrated issues contain valuable monographs on all aspects of currency. Most important.

146. Von Bergen, W. [Numismatic Bank]. **COIN COLLECTORS' HANDBOOK**. 1891, 6th ed. 190 pp. Ills. 6 pls. Covers chipped and worn, contents Fine. (20.00)

Subtitled "The Rare Coins of America, England, Ireland, Scotland, France, Germany, and Spain. Also Greek and Roman coins. Also, "Illustrated with About 400 Woodcuts". 48 pages devoted to prices on various colonial varieties.

147. Von Bergen, W. **THE RARE COIN ENCYCLOPEDIA**. 1906-07, 7th ed. 16mo. [60?] + 131pp. Ills. Vals. Covers missing, Contents nearly Fine. (20.00)

A numismatic forerunner of Mehl's Star Coin Encyclopedia. "While there are other and more elaborate works on Coins, yet nothing has been so far produced in this particular line giving the reader a comprehensive guide to the value of coins [from 700 B.C. to 1900]".

148. Wilson, Frank Causey. **FRANK CAUSEY WILSON'S MONTHLY RARE COIN BULLETIN**. 11 consecutive issues from May 1945 (Volume 1, Number 4) to March 1946 (March 1946). 8vo. Wraps. Average 15 pp. Each folded as originally mailed. (50.00)

With one notable exception, this scarce periodical primarily contained display ads for many mail order dealers: Raymond, Federal Coin Exchange, Kenneth Lee, Clint Hester, M. Powills, and others not so prominent. However, each issue also contained a biography of a different numismatist such as Lee, Frank Katen, Hans Schulman, Joseph Maley, Whitman Publishing (Pleased to meet you, Mr. Publishing, or may I call you Whitman?). Even single issues of this are most elusive; this long run is distinctly unusual.

149. Yeoman, Richard S, (ed.) **WHITMAN NUMISMATIC JOURNAL**. A Monthly Magazine Devoted to all Phases of Numismatics. Complete from January 1964 to December 1968. 60 issues in five volumes. Fine. (75.00)

The contributing authors are a numismatic "Who's Who": Bolender, Bowers, Breen, Glaser, Julian, Kenney, Newman, Taxay, Willey, Yeoman, and others. Covers the infinite variety of numismatics with an emphasis on North America. One of the finest numismatic periodicals of the 20th century.

**The DAVID COHEN Collection of**  
**Catalogues and Lists Produced by Q. DAVID BOWERS et al.**

Numismatic literature issued by Q. David Bowers and the firms with which he has been associated are the most eagerly sought modern emissions in the field. The following significant offering is distinguished by some rarities and one particular item which has never been offered previously and, so far as we can determine, has been previously unknown to collectors. This Bowers material in this section will be listed chronologically, including those items which do not fit here alphabetically.

150. Bowers, Q. David (Wilkes-Barre). **Q. DAVID BOWERS, Numismatist: BULLETIN NO. 2**. 1956. 8vo, self-covered. 8 pp. Ills. But for insignificant bending of the corners, a bright, clean, unmarked VF. (100.00) PLATE

Only 2 numbers of the BULLETIN were produced; both are decidedly rare. Rarities offered: 1842, 1852, 1855, and 1857 proof half cents; 1863, 1864, and 1865 proof dollars and quarters with motto; a previously unlisted 1838 Gobrecht half; gem 1792 half dime. Rarely offered or seen, this list is most eagerly sought, virtually coveted. For the collector of Bowersiana, this list is the second (or the third, depending on the publication date of the following lot) emission of any kind ever issued by QDB.

**A DISCOVERY PIECE**

**THE BOWERS COIN COMPANY CATALOG OF RARE UNITED STATES COINS**

151. The Bowers Coin Company (Wilkes-Barre, PA). **CATALOG OF RARE UNITED STATES COINS**. Listing Prices Paid and Quantities Minted of United States Coins since 1793. nd. (1957). 25.3 x 19.2 cm. Cream card covers, glossy contents. 31 pp. Ills. Backstrip worn by staples, covers discolored at periphery, evidence of insignificant dampness in outer margins, the contents still clean, unmarked, and VF. (150.00) PLATE

Facts: The catalog carries no printed publication date. It is printed on the same card stock as the B & R Penn-New York Auction sale. The December 1957 NUMISMATIC SCRAPBOOK on page 2401 carries an announcement that "Q. David Bowers announces the opening of The Bowers Coin Company." In the inaugural issue of EMPIRE TOPICS, May-June 1958, the new B & R company publication, it states "Empire Coin Company, Inc. was formed on April 1, 1958 by James F. Ruddy and Q. David Bowers. Triple Cities Coin Exchange and Bowers Coin Company were combined to form a new company." During the summer of 1957 B & R jointly conducted a successful Penn-New York auction sale. "Realizing that a combination of their two companies would result in a complete numismatic service for collectors, steps in this direction were taken in late 1957 and early this year [1958]." (EMPIRE TOPICS, May-June 1958, p. 1)

Cataloguer's Theories: It is reasonable to assume that Bowers Coin Company was in the process of being combined into Empire Coin Company almost from its inception. It is also reasonable to assume that QDB might not have mailed out many of these catalogues since they would be virtually obsolete from the outset.

Conclusions: None of the "Bowers" specialists or advanced collectors of numismatic literature have any knowledge whatsoever about the existence of this publication. Obviously, none own a copy. This is not a piece of ephemera, but rather it is a well-produced, substantial "Prices Paid" catalogue. While it would not be accurate to call this "unique", we can say in confidence that this is the discovery piece.

THE LIMITED LIBRARY EDITION, limited to 500 copies. "To Mr. and Mrs. R. Henry Norweb with the compliments of Empire Coin Co., Inc." with the signatures of Q. David Bowers and James F. Ruddy. The first five copies of **EMPIRE TOPICS** tend to be quite scarce. These mini-Rare Coin Reviews feature: especially strong offerings of Connecticut coppers; a 2 part monograph by Walter Breen - "Blundered Dies of U.S. and Colonial Coins", detailing 144 examples; 2 well-catalogued mail bid sales predating the 1962 ESNA Convention sale; Bowers 2 part article, "The Transitional Coins of America".

BOWERS AND RUDDY: The Complete Set of Sales from 1972 to 1983.

179. Bowers and Ruddy. A COMPLETE SET OF 63 AUCTION CATALOGUES from ARMAND CHAMPA (May 19, 1972) to HARTE / COLLINS / FORD (January 25, 1983). The first 2 sales 8vo; the remainder 4to. 59 with original PRLs. But for Garrett I and Delmar both having severe edge scuffing, generally Fine and better. (350.00)

This modest lot consists of approximately 7000 pages and 100,000 lots. It would be hard to imagine any officially (or unofficially) issued coin which is not issued in this run. 11 of the sales have individually brought over \$275 in our sales. This is an especially important reference grouping as only the Marks, Terrell, Bridgeton, and Harte III sales have missing PRLs.

-----  
BOWERS AND MERENA: The First 37 Auction Catalogues Complete.

180. Bowers and Merena. The First 37 Auction Sales from the M. VERNON SHELDON / CONNECTICUT HISTORICAL SOCIETY (April 8, 1983) to DAVID B. SILBERMAN, JR. (November 16, 1988). Generally VF. (400.00)

A FEW PROBLEMS: 4 sales are missing PRLs: Sieck & Harte, Brand II, Dreyfuss, and Leidman. The PRL for the Hawaiian Sale is with part of the Cole sale list. The King of Siam sale is damaged from mailing. The "Four Memorable Sales" catalogue has a printer's cutting error on the back cover. About 6 PRLs are copies. Two small, insignificant mail-bid sales are not included.

A MONEY TREE OPINION: The catalogues issued by Bowers and Merena are the best group of numismatic auction sales EVER issued by any firm, anywhere, anytime. The quality of the production is surpassed only by the quality of the offerings, which is surpassed only by the quality of the cataloguing. QDB has stated that the New Netherlands catalogues were his choice for "Desert Island" reading. These sales are our choice. The body of B & M sales represent the epitome of numismatic auction catalogues.

HIGHLIGHTS: Brand I & II; Lee Hewitt; Abe Kosoff; the Julian Leidman/David Dreyfuss sales of tokens, medals, and Americana; the Frederick Taylor (Connecticut coppers)/Warren Baker (Canadian "Blacksmith" tokens); Norweb I-III, 1987 Bebee/ANA sale, ad infinitum.

When the sales were issued, B & R also offered a special slipcase in blue leatherette over boards to house them. "Garrett Collection Auction Catalogues. Bowers & Ruddy Galleries" in gilt on the spine. The case is attractive, quite useful, and elusive.

The Auction Catalogues: A Nearly Complete Set

267. Katen, Frank (Milford Coin & Stamp Co., New Haven). 1ST PUBLIC AND MAIL BID CATALOGUE of United States and Foreign Coins, Paper Money, Tokens, and Medals. April 6, 1946. 8vo, Orange CaC. 23 pp. 902 lots. 1 plate. IILs. Nearly Mint in original mailing envelope. (35.00)

Mr. Katen's achievements cover the entire field of numismatics. He was the first American coin dealer to visit occupied Germany after World War II. The accounts of his visit, entitled "Double Impressions", in sales 19 to 24 are a riveting, first person history of post-WWII Europe and Germany. His offerings of Germanic coinage in all series, including multiple talers, are important reference material. Mr. Katen was also a key "player" in Canadian coinage 1946 Coin Collector's Almanac. Yet beyond all his numismatic achievements, there is no finer gentleman anywhere. Do not view this as a eulogy as Mr. Katen may be busier than ever as he is currently working on a literature project of mind-boggling proportions in addition to conducting his regular auction business.

268. Katen, Frank [and Laurese]. 64 of the remaining 66 Auction Sales from Sale 2 (June 28, 1946) to Sale 67 (12/2-3/1988). 8vo, CaC. Some illustrated. (350.00)

Missing only sale 18 (1/6/50) and rare sale 28 (July 30, 1954). Forty years of catalogues from the godfather of numismatic literature!

Mr. Katen conducted the 1948 A.N.A. auction, his eighth sale. Beginning with Sale 29 in June of 1958, Mr. Katen's catalogues became primarily sales of numismatic literature. Of special significance were the FLOYD NEWELL library (sale 31); the NATHAN EGLIT library (sales 33 and 34); the LYNN NOYES library (sale 36); The legendary GEORGE J. FULD LIBRARY (sales 36 and 37) which is arguably the finest American library of numismatic literature yet offered; SOL KAPLAN (sales 41 & 42), LEE HEWITT (sale 42), the WARFIELD, YOCKERS, PERIER sale (sale 43) - still the largest number of lots of numismatic literature offered in one sale; the incredible "WYLIE HOARD OF NINETEENTH CENTURY AUCTION CATALOGUES" offered in sales 44, 45, 46, 52, and 53. Other names: Overton, Boosel, [the James B. Longacre currency proof collection], the Numismatic Library of the Chase Manhattan Bank's World Money Museum (Sales 63 and 64). The importance of this lot cannot be overstated for the numismatic bibliophile.

**279. Mayflower Coin Auctions, Inc. (Boston). 28 of the 30 Sales Issued by the Firm. From November 1956 to February 1976. Small format, CaC. The card covers tend to show soiling, with the contents generally clean and VF. Generally Fine and better. (150.00)**

The Mayflower sales were under the direction of Maurice Gould, and Manuel and Joseph Lipson. Incidentally, a 1986 catalogue was also issued under the Mayflower name, which had been purchased by other principals. In fact, the new Mayflower had even been awarded an ANA auction sale. However, that decision was rather quickly rescinded. The Mayflower auction sales are vastly underappreciated. They offer important colonials, half cents, large cents, bust half dimes and bust dimes, Canadian and Maritime coins and currency, and U.S. currency. Only sales 6 and 7 are missing.

Sale 1: 143 large cents and 175 half cents attributed by Frank Washburn. Sale 2: 320 attributed large cents, most priced in pencil. Subtitled: "Together with a Partial List of the rarest coins". Includes a "prices paid" section. We know of no earlier piece of Mehl literature. The earliest piece known prior to this was list No. 7, from 1904. Despite the item's problems, a most important piece.

286. Merkin, Lester. The AL C. OVERTON Reference Collection of Bust Half Dollar Varieties. June 15, 1974. 41 pp. 1070 lots. VF. (25.00)

Lester Merkin's sales may very well be the most underappreciated group of auction catalogues in the field. With Walter Breen having done so much of the cataloguing, the quality of the offerings and the text rank with the best. Obviously, the Bust Half nuts will be after this sale. While there are no illustrations in this sale, plate coins from the first and second editions of Overton's early half dollar reference are indicated. 508 bust half varieties are indicated. To make things interesting, there are also 175 attributed, thoroughly described large cents here.

287. Merkin, Lester. [The ARTHUR FRITZ Collection of Large Cents from 1816 to 1857]. October 19, 1966. 62 pp. 545 lots. llls. Glossy covers slightly rubbed, contents VF. (20.00)

According to Remy Bourne's article "Rare Auction Sale Catalogs" in THE ASYLUM, (Winter 1988), this is one of the 8 rarest sales since 1950, "The majority of these catalogs were destroyed in a flooded garage where they had been stored prior to and after the sale." Catalogued mostly by Breen. 37 "Sheldon" cents with good text, and the 1793 S-11 plate coin. Fritz' 74 "Newcombs", principally census coins. Good provenancing in both series. Also good gold, silver, and colonials.

An important konvolut of sales including (1) the ARNOLD PERL Collection of Colonial and Continental Currency; (2) the HELFENSTEIN Collection of U.S. Dimes with GEORGE FULD'S "Wealth of the South Mulings"; (3) The BLAISE DANTONE Collection of Half Cents; (4) The MRS. WAYTE RAYMOND Collection of Fractional Currency and THE WAYNE SLIFE Collection of Large Cents. Also sales of June 24, 1972 and September 12, 1973. This group, largely catalogued by Breen, has impressively catalogued offerings in all series.

289. Morgenthau, J.C & Co. (catalogued by Wayte Raymond and James Macallister). 35 of 54 auction sales from #276 (2/6/32) to #454 (1/11/44). Both small and large format. Averaging VG. (150.00)

Morgenthau & Co also conducted non-numismatic auctions which accounts for the numbering. An asterisk after the sale number indicates that the cover has the signature of Wayte Raymond. Sales in boldface are particularly important. This offering includes the Virgil Brand Collection called the "Great American Sale", the Newcomer sales, both parts of the Heifetz collection, and the Lighthouse collection.

Contents: Sale 276 was the first sale conducted under the firm's name according to Gengerke. #276, #293 (James Clark, extensive California fractional gold); #311, priced ([Virgil Brand], important colonials - Roman head cent; rare gold); #315\* (priced); #335 (the Crichton collection); #336, priced & Prl (Waldo Newcomer); #338\*, priced (Russell Burrage Greek and Roman); 345 (Waldo Newcomer I, Latin American); #348 (Burrage and Newcomer, nice large cents); #359 (Prl); #360, prl (J.C. They offer quality cataloguing, presentation, and profuse illustrations of paper money, foreign coinage, Judaica, and especially U.S. paper money. The following sales are each large format. The same cannot be said for the card covered editions.

314. Peters, Jess, Inc. A Priced Listing of the Silver Coins of China. January 1972. 8vo, yellow CaC. 49 pp. 817 lots. 28 pls. VF. (20.00)

A most important listing. These are thoroughly described and attributed; some are provenanced. A few are ex-Xenos. Always in demand.

WAYTE RAYMOND issued catalogues variously under the firm name of The U.S. Coin Co. (1912-1918), and during much of the same period both for J.C. Morgenthau (cataloguing with James G. Macallister, 1932-1945) and under his own name. Many of the sales below are virtually mint, quite unusual for Raymond sales.

316. Raymond, Wayte. All 3 Sales from 1937, Sale Nos. 17-19. 8vo, CaC. Each with original PRLs. (15.00)

While Raymond was cataloguing for Morgenthau, those sales issued under his own name were being largely catalogued by Stuart Mosher. Sale 17 & 18 are VF, sale 19 is holed at the spine from being removed from a sewn volume. The sales average 25 pages and 750 lots of ancients, foreign, and U.S. 17 and 19 are plated. Raymond considered that his First Mail Bid Sale was the September sale (Gengerke no. 17).

317. Raymond, Wayte. All 8 Sales from 1938, Sales 20-27. 5 are 8vo, 2 are 4to, CaC. (70.00)

The MARCH 8 sale (w/PRL) contains duplicates from the Julius Guttag collection, good Canadian (remember, Raymond's Canadian Coin monograph served as the standard guide for the day), sewing holes at spine. The JULY 6 sale features foreign crowns (w/PRL). The AUGUST 16 Sale has good large cents and early halves, but has cover graffiti. The SEPTEMBER 20 Sale, 4to, is the important Doelen Collection of foreign crowns (w/PRL). The NOVEMBER 1 sale features a 140 lot offering of 19th century British silver tokens (w/PRL).

318. Raymond, Wayte. 6 of 8 Sales from 1939, Sales 28-30, 32-34. 5 are 4to, CaC. 5 with PRLs. Covers generally VG, contents Fine and better. (30.00)

4 with signatures of Floyd W. Mottram on cover. Sale 33 holed for binder, sale 34 has prices also pencilled in. These sales are especially strong in ancients and European, though there are quality large cents, half cents, early halves, Canadian, and numismatic literature.

319. Raymond, Wayte. All 4 Sales from 1940, nos. 36-39. 8vo, CaC. Staples rusty, severe water damage on sales 37-39. (8.00)

The January 23 sale (priced in pencil), VG, has 195 attributed large cents.

320. Raymond, Wayte. 7 of 8 Sales from 1941, nos. 41-47. 8vo, CaC. Generally VF. (50.00)

The June, October, and December sales have PRLs. Each of these sales feature between 250 and 300 lots of proof singles from 1859.

All of the RAYMOND sales from here are VF to near Mint.

321. Raymond, Wayte. 5 of 7 Sales from 1942, nos. 50-54. 8vo, CaC. (60.00)

The March 24 sale features 597 lots of French coins from 1789 to 1914, and 330 lots of U.S. proof singles from 1859. The remaining sales feature proof and unc. singles, and commems. The April and October sales have PRLs. The back cover of the September issue states that there will be supplements issued for 1943, not an annual Standard Catalogues.

322. Raymond, Wayte. 2 of 4 Sales from 1943, nos. 55-56. Nearly Mint. (25.00)

The March 9, 1943 sale is 16 x 9 cm. (16mo), quite a scarce catalogue. "This miniature catalogue is our solution to the wartime transportation delays which affect second class mail.... By reducing the size of the catalogue we are able to send it by first class mail.... It is interesting to note that a new postal law in England prohibits the distribution of free catalogues to collectors."

323. Raymond, Wayte. All 3 Sales from 1944, nos. 59-61. 8vo, CaC. Nearly Mint. (30.00)

These three sales are most elusive, especially in pristine condition.

324. Raymond, Wayte. 6 of the Remaining Sales, Conducted from 1945 to 1950, nos. 62, 64-67, 69. 8vo, CaC. Nearly Mint. (50.00)

The November 1946 sale features some excellent half dimes: 1792 in mint state, "perfect" 1794, unc 1797, "superb" 1803. Important dimes, many provenanced: proof 1796, 1803 unc, 1811/ unc, 1814 small 8 unc, 1821 proof, 1822 BU, 1824/22 unc. The February 1947 Sale features outstanding early quarters, many provenanced, reminiscent of the quality early dimes and the half dimes from the preceding sale: proof 1796, VF 1804, unc from 1806 & 1807 with an 1807 plain edge. Outstanding half dollars, many provenanced: 1795 p/l unc, VF 1797 ex-Earle, AU 1801, BU 1802.

325. Raymond, Wayte. The J. PIERPONT MORGAN Collection. Catalogue of the Greek and Roman Coins, Abukir Medallions, Roman Gold Bar. 8vo, CaC. 1953. 59 pp. Profusely illustrated. Nearly VF. (12.00)

This legendary collection was housed in the American Numismatic Society from Morgan's death in 1913 until 1949 when the trustees of the Morgan Library decided to sell the collection to Raymond. These extraordinary ancients are virtually all illustrated, and well-provenanced. The Greek silver and Roman gold are especially noteworthy.

326. Reed, Ira S. XIX AUCTION SALE OF UNITED STATES COINS. 12mo, green CaC. February 24, 1940. 34 pp. 1077 lots, PRL. Rust at staples, else nearly Fine. (25.00)

1796 "with pole" half cent. Important for 496 attributed large cents, many rare varieties. Reed sales are rarely found with the original PRLs. This lot also includes 4 other Reed sales: Nos. XVII, XVIII, XX, and 29.

327. Schulman, Hans M.F. (Abe Kosoff, auctioneer). [Sale 5] The GEORGE VANDERWENDE Collection of U.S.A., Swedish, English, etc., The FERRARI Siege Coins. January 31, 1942. 8vo, red and white CaC. 46 pp. 1109 lots. A tiny section missing from bottom of backstrip, else Fine or better. (25.00)

The first 5 Schulman sales are rare.

328. Schulman, Hans M.F. [Sale 6] Duplicates from the Collection of ... KING FAROUK and Coins from the Estate of the Late MR. MAX SCHULMAN of Amsterdam. February 4, 1950. 44 pp. 1115 lots. 2 plates tipped in. Better than Fine. (20.00)

The rarest of the post-war Schulman sales. In Mail-Bid Sale 4, I mentioned that we were unaware of any copies with plates despite the plate notations in the text. We have since been informed that copies of this scarce sale with plates exist, but can be considered to be very scarce. This also comes with the original mailing envelope.

329. Schulman, Hans M.F. [Sale 7] J. PIERPONT MORGAN, H.D. GIBBS, BURDETTE G. JOHNSON, ... from the Estates of MAX SCHULMAN, A.M. TRACEY WOODWARD. April 26-28, 1951. Small 4to, glossy CaC. 112 pp. 3049 lots. 22 pls. Nearly Mint (20.00)

The first 895 lots are Gibbs' Spanish and Spanish-American coins, which he catalogued, 490 crowns feature an 1828 Coquimbo (Colombia) Peso, which Myron considers to be the rarest Western Hemisphere crown. Ancient coins from Brand and Morgan, the Morgan lots from the Wayte Raymond purchase. A sought after sale. Of Note: this scarce sale usually appears with rubbed covers. This is virtually a mint copy, and rare as such.

330. Schulman, Hans M.F. [Sale 8] J. PIERPONT MORGAN, the OVAZZA Collection, H.D. GIBBS, A.M. TRACEY WOODWARD. April 24-26, 1952. Small 4to, Glossy orange, CaC. 64 pp. 1495 lots. 29 pls. Errata sheet. Nearly Mint. (20.00)

More of the same type of material as the above sale, with Woodward's important Chinese and extensive Italian gold. This lot also includes the Collection "MARQUES DE LL ..." of Spanish and North, Central and South America Colonial Coins [Sale 8], held on April 26 with the other sale in this lot. Each of these scarce sales are particularly unusual in choice condition. These are virtually mint copies as mailed in the original (same) mailing envelope.

331. Schulman, Hans M.F. 75th Anniversary Sale. March 18-19, 1955. 137 pp. 2487 lots. 28 pls. Spotted at backstrip, else Fine. (30.00)

Important for the Spiro Collection of New Jersey Coins and Currency, "the finest and most complete collection ever owned by one collector". Contains 200 attributed New Jersey cents, with 4 plates devoted to them. A basic reference sale.

332. Schulman, Hans M.F. 47 Sales from 1953 to 1972. Generally Fine and better. (.00)

Sales 11-13, 14-15, 17, 20, 23, 33, 35, 37, 39-40, 42, 46-56, 58-62, 68, 70, 72-73, 81-83, 85-86, 90, 92-97, 99. Important named sales include Gibbs, Tatnall, Virgil Brand (both parts), Arlow, King Umberto, Medina, Zak, Herdegren. The variety of offerings in his sales were staggering. Although it seems that Schulman's mailing list was more extensive than Reader's Digest's, the first 19 sales are rather scarce.

333. Scott, J.W. Catalogue of American & Foreign Copper Coin with the prices at which they can be purchased of the publishers. 1875. 8vo, wraps. 16 pp. 111s. Covers soiled and worn at backstrip, folded, few pencil notations inside, contents VG. (12.00) PLATE

Attenelli, p. 98. Any of the lists prior to 1876 can be considered to be very rare. 7 of the pages give prices paid for U.S. copper and colonial coinage; the remainder are prices for stamps. For what it is worth, there are no prices listed for 1793 or 1801 cents in top grade (Fine) or for 1796 half cents in any grade.

334. Scott Stamp & Coin Co. Ltd. The Coin Collector's Journal. 1887, Volume XII. 8vo, original blue decorated cloth, gilt. 188 pp. 111s. Index bound in. Rubbed at extremities, still a bright, clean Fine copy. (75.00) PLATE

This estimable journal is a fascinating compendium of feature articles of Mexican coinage, colonials, and European numismatics. Of particular importance: this issue contains the first 7 installments of "The Cents of the United States". The CCJ from 1879 to 1883 ran a series which described "all the known types and varieties of United States cents, [issued] between the years of 1793 and 1857". This 1887 volume began a series of articles which "[employed] all valuable material contained in our previous list, with the addition of such new data as may subsequently have been brought to light." This volume fully describes the first 80 types from 1793 through part of the 1796s. Many are illustrated with engravings. 43 varieties of the 1794 are listed - "we have rejected several numbers entirely" from former lists, the "starred reverse", for example. "Our desire has been to adhere strictly to actual varieties." Although no author is specifically mentioned for the series, the text in the 18th edition of Raymond's (and Ford's and Breen's) The Standard Catalogue of United States Coins, in the section "Notes on the Large Cents" (p. 67), indicates that the "serial article in the Scott's Coin Collector's Journal [was written] by David Proskey", who was the journal's longtime editor. Incidentally, this serial listing terminated with the cents of 1802 in the CCJ's final issue the following year. Otherwise, the Proskey / CCJ numbering system might very well have become the standard for attributions. This penultimate volume, Volume XII, of the series is scarce. The final volume, Volume XIII, is rare.

335. Shultz, Norman. Auction Sale. November 28, 1939. 22 x 10 cm. CaC. 31 pp. 1511 lots. Rusty staples, else VF. (10.00)

338. Superior Stamp & Coin Co., Inc. [MOSHE DAYAN] Antiquities, Rare Ancient and Medieval Coins. October 14-15, 1971. 4to, CaC. 76 pp. 1091 lots. 31 pls. Cornered at top of front cover, else Fine. (15.00)  
Dayan's consigning of his collection of antiquities to Superior caused severe political problems for him in Israel. This sale, Superior's third, is most infrequently offered.

339. Superior Stamp & Coin Co., Inc. The CLARKE E. GILHOUSEN Collection, Parts 1-III. February 19-21, 1973; June 11-14, 1973; October 1-4, 1973. 4to, CaC. PRLs. VF. (50.00)

Gilhousen's collection was used as collateral for an unsuccessful mining venture in the 1920's. In the 1930's Edwards H. Metcalf acquired the collection through foreclosure and a bequest. Metcalf consigned the collection. (Information from the Jack Collins sale of July 4, 1987). This is a most important collection of U.S. and Foreign gold, and extraordinary bust silver coinage.

340. Superior Stamp & Coin Co., Inc. The DR. CHARLES L. RUBY Collection, Parts 1-III. February 11-13, 1974; June 17-23, 1974; February 10-12, 1975. 4to, CaC. PRL for Part I. Fine. (50.00)

Another of the important collections Superior sold during the 1970s, Part I is of particular importance to the copper collectors for the colonials, half cents, and 327 well-provenanced large cents which were catalogued by Walter Breen.

341. Superior Stamp & Coin Co., Inc. 14 Sales from 1972 to 1980. (125.00)

Includes the 1972 C.O.I.N. Sale, the 1973 DURHAM Sale, the 1974 important RIO RANCHO Estate of U.S. Gold (Prl), the 1975 FLOYD WOLFSEN Sale, the 1976 FRED NEGGEN Sale, the 1977 DR. WALTER LEE CROUCH Collection (Prl), the 1977 UNIVERSITY OF WISCONSIN Sale, the 1978 CALIFORNIA Collection (Prl), the 1978 MIGUEL MUÑOZ Collection, the 1979 MADISON ESTATE Sale, the 1979 MIGUEL MUÑOZ Collection, Part II (covers rubbed and soiled), the 1979 NORTHWOOD/SPEAR Collection, the 1980 GARY BURGHOFF ("Radar O'Reilly") sale, the April 22, 1980 sale, the 1980 LOWMAN/BARRY sale. This lot also contains the 1981 Rare U.S. Coin Auction, the 1984 SNIDER ESTATE sale.

342. Superior Galleries. The HOAGY CARMICHAEL and WAYNE MILLER Collections and Other Properties. January 27-28, 1966. 4to, white linen, gilt. 318 pp. 3984 lots. PRL tipped in pocket. 5 color plates. Ills. (75.00)

THE SPECIAL HARDBOUND EDITION. Contains Wayne Miller's legendary collection of Morgan and Peace dollars described as "The World's Finest".

343. Superior Galleries. The ROBINSON S. BROWN, JR. Collection of Large Cents. 4to, maroon leatherette, gilt. September 30, October 1, 1986. 306 pp. 1457 lots. PRL tipped in pocket. 6 color plates. Each lot illustrated. Near Mint. (125.00)

THE SPECIAL HARDBOUND EDITION. Quoting from Jack Collins, "Although these were sold out prior to the auction, we know of six copies that changed hands between coin dealers at \$100, [and soon after] at \$125". Only 200 copies were issued in this format. "The first time in numismatic history that a complete set of Sheldon numbers has been offered at auction". Already a core reference.

344. Superior Galleries. The L.W. HOFFECKER Collection Sale. February 8-11, 1987. 4to, green leatherette. 391 pp. 5537 + 183 lots. 8 color plates. Ills. Near Mint. (75.00)

THE SPECIAL HARDBOUND EDITION. Includes the 1884 and 1885 trade dollars. Hoffecker, who designed the Spanish Trail and Elgin commemorative halves, was the first President of the A.N.A. (1939) from west of the Mississippi. The 183 additional lots consisted of misnumbered lots which were listed as, for example, 1375, 1375A, 1375B, 1375C.

345. Superior Galleries. The EDWARDS METCALF and BUDDY EBSEN Collections of Ancient, Foreign, and Platinum Coins. June 7-10, 1987. 4to, black leatherette. 334 pp. 3223 lots. PRL tipped in pocket. 6 color plates. Ills. Near Mint. (60.00)

THE SPECIAL HARDBOUND EDITION. The 551 lots of Metcalf's platinum coinage are one of the largest offerings in history. The color plates are astounding for halftones. Metcalf was the actual consignor of the legendary Gilhousen collection.

NOTE: The discrepancy in total number of lots, 3223, from the listed lots of 4001 to 7443 can be explained as the first session ended with lot 4780 and the second session began with lot 5000. Several firms begin each new day's auction session with a lot number beginning with an even thousand (2000, 3000, etc.) regardless of what lot number was given to the last lot auctioned the previous day. Consequently, in some cases looking at the first lot number and the last lot number will not necessarily tell you how many total lots were auctioned.

346. Tatham Stamp & Coin Co. FPL No. 6: TATHAM'S BARGAIN CATALOGUE OF COINS & PAPER MONEY. "1938 Season". 12 pp. Ills. Folded as mailed, covers slightly soiled, else Fine. (20.00)

A rare early emission. This lot also includes 6 other Tatham emissions: Coin Collector's Annual Catalog, editions 14 (1941), 25 (1947), 27A (1951), and 30 (1955); Coin Collector's Price List, editions 31 and 35 (1970). A scarce grouping.

347. Taylor, Sol. The MAURICE M. GOULD Memorial Catalogue of Personal Memorabilia. July 15, 1976. 4to, CaC. 33 pp. [817] lots, PRL. Ill. Bidsheet removed. VG. (15.00)

The original PRL is most infrequently found. "The selection of items in this sale represents a small fraction of the many personal and numismatic items Maury accumulated over the 55 years he collected". Large cents: 1793 S-3 XF "Chain" (\$2400); 1793 "Wreath" AU 55 & 1793 S-6 c/s "H.O. SCHÖNER READING 1850", both w/d; also convention badges and medals. Taylor's scarce first sale.

The following group of WALTER WEBB sales are most elusive, especially those before World War II. Each is octavo with white wraps. The sales offer ancients, foreign, and U.S. coinage. But for cover slight soiling, each is essentially Fine.

Contents are not fragile. An important part of American numismatic history as the Boston society, "Instituted 3 March 1860, Incorporated 19 March 1870" is apparently the third numismatic society formed in America: following the ANS in 1858 and the Buffalo Society in 1859. Also the Boston Society was responsible for publishing the AJN from 1870 to 1908. The list of members include early "giants". A decidedly scarce, important example of "numismatica Americana".

#### A Consignment from TERRY STAHLURSKI

The following small consignment contains some important copper reference material which is most cases show heavy use and have rather extensive annotations in the text. These references previously belonged to an enthusiastic, but as of yet unnamed, collector.

512. Crosby, Sylvester Sage. THE UNITED STATES COINAGE OF 1793. CENTS AND HALF CENTS. Descriptions of the Various Dies Bearing that Date, with Notes on the Establishment of the Mint. 1897. Small 4to, original wraps. 25 x 20 cm. 36 pp. 3 pls. Pages unopened. Covers disbound and chipped, contents Fine. (95.00)

One of "Two Hundred Copies Reprinted from the 'American Journal of Numismatics' with Some Additions". The article upon which this was based appeared in the AJN in April 1896. This is much more than a dry attribution guide. It is also a most informative, fascinating, readable narrative.

513. Early American Coppers. PENNY-WISE. 65 of 73 issues from No. 7 (July 15, 1968) to No. 79 (July 15, 1980). Averaging VF. (130.00)

Missing issues: 33, 46-48, 50, 70, 76-77. The top corner margins of issue 75 have been gnawed by a rodent, not affecting the text. Although the first four volumes are available in photocopy, these are all original copies. Some are in a binder, some folded as mailed, some in the later original mailing envelopes of Charles F. Heinig, whose collection was sold by Stack's October 20, 1978. Except for some rust on the staples of the early issues, these are virtually as issued, other than the usual alterations contributed by the postal system.

Since 1967 there has been no more vital, nor more important numismatic periodical anywhere than PENNY-WISE. This quarterly has been at the forefront of research for collectors of large cents and half cents. It includes scholarly articles, basic information, discovery of new varieties, controversy, humor, good fellowship, observations of the numismatic scene, reminiscences, and the sine qua non - Denis Loring's A.N.A. Diaries. Individual issues of this journal are so coveted that it is truly an occasion when any significant number become available. Although one does not have to be a copper enthusiast to be enthralled by these issues, it is virtually impossible not to become one after having read these. These will be eagerly sought after.

514. Frossard, Ed. and W.W. Hays. VARIETIES OF UNITED STATES CENTS OF THE YEAR 1794. Described and Illustrated. 1893. 4to, original decorated red cloth, gilt. 18 pp. 2 fine tinted phototype plates of coins. Covers rubbed at extremities, one plate disbound, the remaining content loose, extensive notes neatly in text and on plates. Good, or a really nice reading copy. (150.00) PLATE

Only 250 copies printed. 56 attributed and described varieties of 1794 cents are illustrated both obverse and reverse. In Kolbe's June 1989 sale, two variant original covers were illustrated. The lettering and cover decoration of this copy is identical to the first, except for a rectangular dot after the date, as in the second variant. Tipped inside are 8 sheets of intricately hand written notes on ledger paper describing 1794 varieties, and listing varieties by Hays, Chapman, and Doughty varieties. Warning: the tipped-in notes are so precise and intricate that one's close-up eyesight will be put to the ultimate test.

515. Gilbert, E. and Thomas L. Elder. THE VARIETIES OF THE UNITED STATES CENTS OF 1796. 1909. 4to, original gilt-printed card covers. (14) pp. 2 fine phototype plates. Pasted in are two printed addenda describing varieties 22-25 and 26-31. Printed errata sheet with descriptions of varieties 33-40 tipped in. Covers slightly worn at edges, contents disbound, a few notations neatly on plates and in text. The contents still Fine. (75.00)

In the preface Elder acknowledged the help provided by Ebenezer Gilbert and Henry C. Miller. Despite there being more than a few errors in the text, this was an important reference, notably scarcer with the variety updates. This lot also contains a handwritten copy of the original in a small notebook, with a flowing signature inside of "V.D. Breberback" (?)

516. Newcomb, Howard R(ounds). UNITED STATES COPPER CENTS, 1816-1857. 1944. 284 pp. 4to, red morocco gilt. 11 halftone plates. Many text illustrations. Separated completely at front joint, rear joint perfect. The covers heavily rubbed at extremities. But for fore edge soiling, the contents Fine. (125.00) PLATE

THE DELUXE EDITION PRINTED ON REGULAR PAPER. According to Jack Collins, only 50 copies were bound in this deluxe format. There were 75 copies produced of the deluxe edition on thick paper. With the front joint repaired, this would be a sound copy.

517. A Letter from HOWARD R. NEWCOMB. February 16, 1932. 26 x 16 cm. Folded in quarters as mailed. (55.00) PLATE

The letter, addressed to Mr. C.F. Moellering of Fort Wayne, Indiana, discusses Newcomb's 1925 book on the cents of 1801-1803. Highlights: "I have gotten out a new plate showing two new major varieties of 1801 #13/5-I and 14/3-J and a new plate better showing the 1803 24/5-S." Also, "You also speak about Guttag's and Mehl's reprint (of Andrews) Mehl's is full of errors - on the reverse of this page I am giving corrections in Mehl's list" The corrections in Newcomb's well-known printing are on the back of the letter. "Between Mr. Clapp and myself we have made the above corrections". The letter is on Newcomb's stationery, signed on the front and initialed on the back.  
NOTE: this lot contains a VG copy of Mehl's reprint of the 1883 Frank Andrews, THE UNITED STATES COPPER CENTS 1816-1857, about which Newcomb's letter applies.

518. Overton, Al C. EARLY HALF DOLLAR VARIETIES, 1794-1836. 1967, 1st edition. 8vo, maroon cloth, gilt. 349 pp. llls. VF. (50.00)

Signed on free-endpaper by Charles F. Heinig.

519. Sheldon, Dr. William H. with the collaboration of Dorothy L. Paschal and Walter Breen. PENNY WHIMSY. A Revision of Early American Cents, 1793-1814. An Exercise In Description Classification with Tables of Rarity and Value. 1958, 1st edition. 340 pp. 51 fine plates. Some pencil notations on free-endpaper and a few in the text, else clean and Fine. (75.00)

With label on inside cover indicating that this is an ANA duplicate sold at auction by the Katens in 1978-79. Inked signature inside, "Dr. Wallace Lee". 2500 copies of this edition were originally printed; it sold for \$10.00. "Numismatics, especially cent numismatics, has always had its shady fringe of unscrupulous dealers.... These men depend on a large turnover in the collector population, with a resulting continuous supply of suckers. Now I am not sure that the world would be any better without suckers in it ...." (p. 29) A really nice copy of this classic.

520. 50 Bound Volumes, One for Each State, on NATIONAL BANK NOTES. nd. np. 4to, cloth, gilt. Quality photocopied typescript on rectos. Virtually Mint. (200.00) PLATE

A fascinating compendium of information about national bank notes: listings of national banks, charter numbers, capitalization of each bank when organized, dollar amounts issued, serial nos. of each plate, dollar amounts outstanding at close, ad infinitum. There is a mind boggling quantity of work that went into these state-by-state volumes. One problem, neither the author nor the date or location of publication is listed anywhere. However, an authoritative source has told us that one of the principals involved in the research for the project was Morey Perlmutter. As the research was not copyrighted, these volumes were published by the late Herb Melnick who sold them variously for between \$500 and \$1000. These volumes have since been superseded by work of Hickman and Oakes. These are handsome, most comprehensive volumes. The bindings alone cost several hundred dollars. Obviously, few complete sets were ever sold. Also, obviously, shipping for these items must be a factor to be considered.

**581. Miles, George C. THE COINAGE OF THE ARAB AMIRS OF CRETE. NNM-160. 1970. 86 pp. 9 pls. VF. (15.00)**

The basic reference. The Amirs controlled Crete from (ca.) 827 to 961. There was virtually no historical record of the Amirs on Crete until John Walker of the British Museum began a numismatic study in 1953. Miles' monograph, a study of 268 coins, not only is the definitive numismatic record, but is a classic indicator of why numismatics, at its best, is properly considered to be a science.
